*Differences between Shaman King: Legacy of the spirits Soaring Hawk and Sprinting Wolf versions:

There is no difference in the storyline. However, the number of spirits appearing is different between the two versions, and the results of spirit merging are also different.

Ghosts and spirits are the shapers of cultures and civilizations.

They have existed long before the birth of mankind, and hold dominion over the earth. Their mighty powers are supported by shamans who have attained god class. They are responsible for the creation of four ancient civilizations, and have guided humanity for eons.

Spirits

Spirits exist as partners to shamans, always there for them when in need. It is said that a shaman's rank is determined by the strength of his spirits. Various types of spirits exist: animate spirits, sprites, and angels, among others.

Some, however, were opposed to the mighty power of the spirits. The ancient Aztecs of Central America, who are not included among the four ancient civilizations, managed to avoid conflict with ghosts and spirits, and established a new civilization in the new world. Powerful shamans there used the vast seas as a barrier to protect the Aztecan civilization from ghost or spirit invasions. That is, until humanity itself broke through that barrier...

Obtaining Spirits

It is said that over 1000 types of spirits exist. Battle with restless, tormented spirits, or with various rivals to obtain them. Some spirits may be obtained without fighting.

- After two spirits merge, if the resulting Spirit Level total surpasses your character's Shaman Level (see page 16), the actual Spirit Level will only match the character's Shaman Level Pay close attention to these two types of levels before merging spirits for the best possible results.
- Spirit types change depending on what type of spirits you merge together. Try many different combinations to see what works well
- A Merge Types (see pages 18-19) are divided into "Power Up" and "Change." Choosing "Power Up" will increase the spirit's ability, but won't change its appearance. Choosing "Change" will actually change the spirit's appearance as well as increase its ability.
